Number Sense

A. Know number names and count sequence. K.NS.A

1. Count to 100 by ones and tens. K.NS.A.1
 2. Count forward beginning from a given number between 1 and 20. K.NS.A.2

 4. Read and write numerals and represent a number of objects from 0 to 20. K.NS.A.4
-

B. Understand the relationship between numbers and quantities; connect counting to cardinality. K.NS.B

5. Say the number names when counting objects, in the standard order, pairing each object with one and only one number name and each number name with one and only one object. K.NS.B.5
 6. Demonstrate that the last number name said tells the number of objects counted and the number of objects is the same regardless of their arrangement or the order in which they were counted. K.NS.B.6
 7. Demonstrate that each successive number name refers to a quantity that is one larger than the previous number. K.NS.B.7
 8. Recognize, without counting, the quantity of groups up to 5 objects arranged in common patterns. K.NS.B.8
 9. Demonstrate that a number can be used to represent "how many" are in a set. K.NS.B.9
-

C. Compare numbers. K.NS.C

10. Compare two or more sets of objects and identify which set is equal to, more than or less than the other. K.NS.C.10
